- Post surgery recovery
- Hair loss
- Minimisation of ear mite and other parasites such as fleas
- General well being
- Oxygenation
- Improved Immune System
- Joint pains
- Hip pains
- Appetite
- Vitality increase

Magnetic Attraction pet beds are designed with the north field of the magnet facing the pet, this field is a natural anti-inflammatory which can combat joint pains.

Many VETS are now recommending that pet owners try the magnetic therapy (bed, collars and magnetic water) to assist pets in their healing processes.

The Greyhound Industry have had enormous success with injured dogs winning races after being on the

Magnetic Attraction magnetic bed.

We have produced our pet bed with high quality foam, rare earth high strength, permanent magnets and a high quality industrial rubberised water proof material. which is colour coded, to make sure that you place the dark side of the material facing the animal. We also have available the easy to remove washable cover which can be purchased with the bed as an optional extra. We have offered the cover and the bed separately as some pets may already have their favourite blanket, or you may like to make your own cover.

We have various materials available ranging from Sherpa (lambswool finish), thick corduroy, polyfleece, denim. The underside is made using a heavy duty drill cotton and fastened with Velcro strips for easy removal. The colours may vary from time to time depending on the availability of the material at the time.

Other sizes available. Please contact us to discuss your requirements.
