The Magnetic Body Strap

The **Magnetic Attraction “Magnetic Body Strap”** is a uniquely designed strap which enables you to choose the strength and size of your magnet, and decide how many you would like to insert. As we have designed the product with a color coded magnet, you can apply the magnet to the polarity that suits your body.

The Body Strap is made from neoprene and original "Velcro", and is color coded into sizes, and has been designed with several pockets in which to secure your removable magnet. Simply place your **“Body Strap”** on the area that needs relief, point to the area of the most discomfort, then remove the strap and place the magnet into the corresponding pocket. Our unique design has a small overlap on the inside of the pocket, similar to a pillow slip, enabling you to tuck your magnets in securely.

The removable magnets are also color coded and vinyl sealed - **Green -North (alkaline)** and **Red -South (acidic)**. Mostly it is suggested that you place the magnet with the green side facing your body, as acidity is a major cause of dis-ease and discomfort.

Powerful permanent Rare Earth magnets are available separately letting you decide the level of relief required. The magnets are also designed to use in the **“Duo Waterblock”**. (see the benefits of drinking **North Polarized Magnetic water – Alkaline water**)

The **Magnetic Attraction Body Strap** has been designed for use on:

- **Ankle** – Foot problems, ankle soreness, achilles tendon, sprains
- **Knee** - Use as a patella support. Can also be wrapped in a figure 8 around your hand as a support and to treat the top of the hand or the thumb joint.
- **Wrist** - Carpal tunnel syndrome, RSI, Arthritis, Tendonitis, Sprains, Tingling etc

- **Elbow** - Tennis Elbow/Golfers elbow.
- **Thigh** - Sports injuries
- **Neck** - Neck/ headaches etc
- **Waist** - Lower back, period discomfort, sciatica etc.

NOTE:

When ordering body straps, it is necessary to order the Vinyl sealed Rare Earth Magnets for the strap. Two sizes are available 25 x5mm or 12x5mm (2 per pack). Normally, children and slightly built people would suit the 12 x 5mm as they are smaller in size, the 25 x 5mm also fits into the **DUO WATER BLOCK**.

Should you require a special size strap made up, this can be arranged for you. Please feel free to phone or email us to discuss your needs.
