Magnetic Attraction Pet Collars

Many VETS recommend the use of magnetic products for animals with ailments.

May assist animals with Arthritis, joint problems, poor appetite. Fleas and mite just hate the magnets, so they stay away from a pet wearing a magnetic collar or sleeping on the magnetic pet beds.

We have found that our dogs and cats prefer to drink the North polarised (alkaline) magnetic water, we have 2 containers of water, one with the magnetised water and one without, the magnetised water is always used first, so we are confident that our animals prefer to drink it.

The Magnetic Attraction pet collar has been produced using the best quality materials. High powered rare earth permanent magnets have been placed in the collar making sure that the NORTH (Alkaline) side of the magnet is facing your animal.

The collar can be used as a normal collar, it has a strong buckle with a metal D ring for attaching your walking lead. It is fully adjustable and comes in 4 sizes from extra small to Large and we have colors ranging from Black, Dark Green, Royal Blue, Red, Purple, yellow and for the trendy pet..... Hot Flouro Pink!

SIZES:

Extra Small	Minimum: 26cm	Maximum: 39cm
Small	Minimum: 31cm	Maximum: 46cm
