

# Magnetic Attraction - Quality Magnetic Products

*Magnetic-Attraction*

## Magnetic Pillow Insert

**Price per Unit (1): \$40.00**

### **“A Natural DRUG FREE Whole Body Experience”**

We have used Polycotton percale quilted material which is beautifully bound to create a luxurious and comfortable magnetic underlay, to ensure a peaceful nights sleep. Each magnet has been sewn into an insert ensuring that the magnet cannot turn or become dislodged. We DO NOT glue our magnets onto the material, making it safe to wash. Rare Earth magnets are lightweight, small, but extremely powerful, and best of all.....totally permanent!

Biomagnetic Therapy is a non evasive DRUG FREE method of assisting the body to relieve pain from a large number of disorders.

It has been found that the Pineal Gland, a tiny major gland located directly in the centre of the brain and responsible for many functions including the production of melatonin and the cyclic patterns of sleep and awakening, is regulated by exposure to steady magnetic fields.

Recent discovery of magnetite in the cells of the brain helps explain the calming effect of Biomagnetic therapy. A magnetic field applied to the head calms as well as induces a hypnotic effect on the brain. This finding has led to the increased success of magnetic pillows and underlays designed to provide a sound and restful sleep.

The increased circulations allows blood vessels to dilate and transport a greater volume of blood to injured areas, bringing with it, natural healers and removing toxic by-products or inflammation.

Due to the fact that your circulation increases you may experience a rise in your body temperature. Some clients have indicated to us that they no longer use their electric blankets since using the Magnetic Underlay.

There are no known side effects to using Magnetic North field therapy, and research results have shown that over 90% of people have had a positive response to using magnetic therapies.
