ALKALINE WATER CAN SAVE YOUR LIFE!

Drinking NORTH Pole magnetized water may assist your body to heal itself and remain in an alkaline state.

All illness stems from the same root cause..... too much tissue acid waste in the body.

Viruses, fungi, bacteria and disease can only survive in an acid environment.

Over 35 years of extensive research have shown that drinking alkaline water (north water) can aid in restoring health even in the most chronic diseases.

INTERESTING THEORIES ON MAGNETIC WATER.

Research has shown that magnetic North water has the ability to help the body repair the DNA of cells from within.

Unfortunately we are exposed to thousands of toxins on a daily basis eg, chemicals in the atmosphere, food, toiletries, drinks, smoking/passive smoking. These toxins have the ability to damage cells and unless these cells are repaired they reproduce themselves in this mutated state, thus creating disease and ailments in the body, eg: arthritis to mental disorders.

Studies have shown that our health conditions the result of deep cellular dehydration. Whilst we think that we are drinking our fluids, we often choose fluids such as coffee, tea and soft drinks that actually dehydrate the body at a rapid rate.

*** Water required to counteract the dehydration of drinking one glass of soft drink is between 10 – 30 glasses of high alkaline water (depending on the type of soft drink consumed).**

*** Up to two extra glasses of water is required for beverages containing caffeine such as Tea and Coffee.**

The amazing fact about magnetised water is that the body is able to absorb and utilize the fluid thus hydrating every cell and organ. The body consists of approx. 75% water of which all the major organs and cells rely on for the optimum functioning that is required for a healthy and mentally alert person. This also applies to animals.

We have had great success with dogs suffering arthritic conditions, they not only drink the magnetic water but some of them wear a magnetic collar and sleep on a magnetic dog bed, these dogs have shown a remarkable improvement in their condition. Their owners have expressed total amazement in the increase in vitality and movement in their dogs, some of which the VET had given up on.

Every cell in the body is like a small magnet. containing a north and south field, as the body is exposed to the influences of **electro magnetic radiation** from computers, **tv's radios, microwaves, cellular phones, fluoro lights** etc, we are being subjected to a adverse effect on our health.

Some benefits North Pole Magnetised water may have:
